MHA is a powerful voice for healthy communities throughout the nation and offers information, referrals, and resources for individuals living with any type of mental illness. One of MHA's services includes online screening, which is one of the quickest and easiest ways to determine whether you are experiencing symptoms of a mental health condition. Mental health conditions, such as depression or anxiety, are real, common and treatable. And recovery is possible.

MHA supports communities by providing information and through our regional affiliates and support groups. We believe in inclusivity and work with ALL individuals and their families through each step on the path to wellness, from making initial referrals, to providing free mental health services, to helping maintain stability and productivity once they are achieved.
